DETAILED ACTION

Priority

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Information Disclosure Statement

The information disclosure statement filed April 7, 2005 has been made of record and the references cited therein have been considered by the examiner.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1-5, 9, 11 and 12 are rejected under 35 U.S.C. 102(a) as being anticipated by Hirano (U.S. Patent No. 6,447,445).

In regard to claims 1-5, 9, 11 and 12, Hirano teaches an endoscope comprised of an operation unit 1, an insertion instrument 2 and a universal cord 3 (see figure 1). The insertion instrument 2 has a hard end portion 2a at its distal end and the hard end portion 2a is formed of a holding member 40 and a cover member 41 where concave-shaped recesses 42, 43 and 44 are formed at three positions in the holding member 40 (see Figures 2 and 4). An illumination lens barrel 13, an objective lens barrel 24 and a

treating tool inserting pipe 32 are respectively fitted into the recesses 42, 43 and 44 (see Figure 2). Recesses 42, 43 and 44 have openings for introductory part 42a, 43a and 44a and receptors 42b, 43b and 44b for correctly placing the illumination lens barrel 13, objective lens barrel 23 and treating tool inserting pipe 32 (see Figure 4). Cover member 41 fits to the external peripheral surface of the holding member 40 and consequently the illuminating lens barrel 13, objective lens barrel 24 and treating tool inserting pipe 32 are restricted in the axial direction (see col. 5, lines 35-50).

Allowable Subject Matter

Claims 6-8, 10, 13 and 14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
